Student Loan/Student Allowance

NZ citizens and Permanent Residents may be eligible for a student loan to cover their tuition and facility fees, and a student loan or allowance to help with accommodation/living costs. We recommend applying for your student loan early to ensure it is processed before your course starts.

Student Loans

Payment of tuition will be accepted directly from your student loan account. In any other case all fees must be paid before your invoice date.

Student Allowance

For students eligible, this will be paid to your own bank account. You will need to set up an automatic payment weekly in advance from your bank account to IPU New Zealand's account for your rent. Your first payment(s) may need to be made before your student allowance begins, please budget for this. If you are not eligible for a student allowance, you may be able to apply for a loan to cover your living costs.

Course related costs

Students with a Student Loan account can apply to StudyLink for course-related costs. This will be paid to the student's bank account. You may then use this to cover textbooks etc.

For information on student loan/allowance eligibility, and to start your application, visit Studylink's website: www.studylink.govt.nz
